

CSE 2315 - 003, 2315 - 004: Discrete Structures
Fall 2017

Instructor: [Vamsikrishna Gopikrishna](#)

Office Number: [ERB 553](#) (If I am not here then I am usually in [ERB 128](#))

Email Address [All email regarding the course must contain [CSE2315-003](#) or [CSE2315-004](#) at the beginning of the subject line]: vamsikrishna.gopikrishna@uta.edu

Office Hours:

- **Time (CSE 2315-003):** Tuesday, Thursday :1:00 PM – 2:00 PM
- **Time (CSE 2315-004):** Tuesday, Thursday :2:00 PM – 3:00 PM
- If you cannot meet during these times, email me and we can try and set up meeting times

Section Information: CSE 2315-003, CSE 2315-004

Time and Place of Class Meetings:

- **CSE 2315-003**
 - **Location:** [LS 101](#)
 - **Time:** Tuesday, Thursday – 3:30 PM to 4:50 PM
- **CSE 2315-004**
 - **Location:** [NH 112](#)
 - **Time:** Tuesday, Thursday – 5:30 PM to 6:50 PM

Web Page: <http://omega.uta.edu/~gopikrishnav/classes/2017/fall/2315/>. Too Long? Just go to <http://omega.uta.edu/~gopikrishnav/> and follow the links

Description of Course Content:

This course covers Propositional and predicate logic, mathematical proof techniques, sets, combinatorics, functions and relations, graphs, and graph algorithms.

Student Learning Outcomes:

Students successfully completing this course will:

- Have a clear understanding of selected fundamental formal theoretics and discrete mathematical concepts employed in problem abstraction and representation needed in the study of modern computer science, computer engineering and software engineering.
- Achieve familiarity and ease in working with mathematical notation and concepts.
- Be able to understand and employ proof techniques, including domain-specific, mathematical induction and proof by contradiction, and be able to decide what the appropriate technique in a given situation is

Required Textbooks and Other Course Materials: Judith L. Gersting. Mathematical Structures for Computer Science. W.H. Freeman and Company, New York, NY, 7 th edition, 2014. Note that if you choose to use an earlier edition, it's your responsibility to identify any differences in the editions.

Descriptions of major assignments and examinations:

There will be several homework assignments in this course. All homework submissions must be submitted via [Blackboard](#). If you find yourself in an emergency situation and cannot deliver homework on time, immediately inform the instructor. Also, while working with other persons on non-graded example problems from the textbook is a good way to help you develop your understanding and insight into the techniques of problem solving, homework solutions must be your work only. Violations of this will not be tolerated and result in severe penalties for all parties involved, in strict compliance to official UTA policy.

There are three exams. The first two exams will cover the first 2/3rd of the course material. The final exam will be a cumulative exam but will be weighted heavily towards material from the last 1/3rd of the course material. No exam scores will be dropped. **No make-up exams will be offered.** Absence from exams may be excused, with appropriate documentation, for illness, critical family emergencies, military service obligations, observance of major religious holidays, and certain university service commitments. Car or transportation problems will **NOT** be considered a legitimate reason to miss an exam. Requests for excused absence, and documentation for such absences, must be provided as soon as possible. **Even if the reason for an absence is valid, a request for an excused absence will be rejected if provided unjustifiably late.**

Attendance: Students are expected to but not required to attend all classes and meetings. Any material that the student missed will not be covered again in class. If the student is unable to attend a class due to personal reasons, it is the student's responsibility to use the textbook to learn the content and to meet with either the Instructor or the TA to clarify any doubts.

Grading:

Late submission policy:

All assignments are graded out of 100 points. Assignments submitted late will be penalized, at a rate of 2 penalty points per hour. The submission time will be the time shown on the Blackboard submission system. Any assignment submitted more than 24 hours late will receive no credit. Exceptions will only be made for documented emergencies, in strict adherence to UTA policy. Computer/network crashes are NOT an acceptable excuse for late submissions. To avoid problems with such crashes and last-minute problems, students are encouraged to submit early. You can always revise your submission till the deadline.

Grading Policy:

You will be assigned a numeric score based on your performance in both your assignments and your exams. The amount each of these contribute to your average is given by the following rubric.

Material	Contribution
Homework Assignments	30 %
Mid Term 1	20 %
Mid Term 2	20 %
Cumulative Final	30 %

Your average numeric score is then converted to a letter grade according to this rubric

Numerical Score	Grade
>= 85	A
>= 70	B
>= 55	C
>= 40	D
Otherwise	F

These percentages and cutoffs are tentative and may be changed bases on the distribution of scores and the degree of difficulty of the assignments and exams.

Students are expected to keep track of their performance throughout the semester and seek guidance from available sources (including the instructor) if their performance drops below satisfactory levels.

Drop Policy: Students may drop or swap (adding and dropping a class concurrently) classes through self-service in MyMav from the beginning of the registration period through the late registration period. After the late registration period, students must see their academic advisor to drop a class or withdraw. Undeclared students must see an advisor in the University Advising Center. Drops can continue through a point two-thirds of the way through the term or session. It is the student's responsibility to officially withdraw if they do not plan to attend after registering. **Students will not be automatically dropped for non-attendance.** Repayment of certain types of financial aid administered through the University may be required as the result of dropping classes or withdrawing. For more information, contact the Office of Financial Aid and Scholarships (<http://wweb.uta.edu/ses/fao>).

Americans with Disabilities Act: The University of Texas at Arlington is on record as being committed to both the spirit and letter of all federal equal opportunity legislation, including the *Americans with Disabilities Act (ADA)*. All instructors at UT Arlington are required by law to provide "reasonable accommodations" to students with disabilities, so as not to discriminate on the basis of that disability. Any student requiring an accommodation for this course must provide the instructor with official documentation in the form of a letter certified by the staff in the Office for Students with Disabilities, University Hall 102. Only those students who have officially documented a need for an accommodation will have their request honored. Information regarding diagnostic criteria and policies for obtaining disability-based academic accommodations can be found at www.uta.edu/disability or by calling the Office for Students with Disabilities at (817) 272-3364.

Academic Integrity: All students enrolled in this course are expected to adhere to the UT Arlington Honor Code:

I pledge, on my honor, to uphold UT Arlington's tradition of academic integrity, a tradition that values hard work and honest effort in the pursuit of academic excellence.

I promise that I will submit only work that I personally create or contribute to group collaborations, and I will appropriately reference any work from other sources. I will follow the highest standards of integrity and uphold the spirit of the Honor Code.

Instructors may employ the Honor Code as they see fit in their courses, including (but not limited to) having students acknowledge the honor code as part of an examination or requiring students to incorporate the honor code into any work submitted. Per UT System *Regents' Rule* 50101, §2.2, suspected violations of university's standards for academic integrity (including the Honor Code) will be referred to the Office of Student Conduct. Violators will be disciplined in accordance with University policy, which may result in the student's suspension or expulsion from the University.

Student Support Services: UT Arlington provides a variety of resources and programs designed to help students develop academic skills, deal with personal situations, and better understand concepts and information related to their courses. Resources include tutoring, major-based learning centers, developmental education, advising and mentoring, personal counseling, and federally funded programs. For individualized referrals, students may visit the reception desk at University College (Ransom Hall), call the Maverick Resource Hotline at 817-272-6107, send a message to resources@uta.edu, or view the information at www.uta.edu/resources.

Title IX: The University of Texas at Arlington (University) is committed to maintaining a learning and working environment that is free from discrimination based on sex in accordance with Title IX of the Higher Education Amendments of 1972 (Title IX), which prohibits discrimination on the basis of sex in educational programs or activities; Title VII of the Civil Rights Act of 1964 (Title VII), which prohibits sex discrimination in employment; and the Campus Sexual Violence Elimination Act (SaVE Act). Sexual misconduct is a form of sex discrimination and will not be tolerated. For information regarding Title IX, visit www.uta.edu/titleIX. If the actions of any student make you feel that you are being sexually harassed, please inform me so that I can let the university know so that they can take appropriate action.

Electronic Communication: UT Arlington has adopted MavMail as its official means to communicate with students about important deadlines and events, as well as to transact university-related business

regarding financial aid, tuition, grades, graduation, etc. All students are assigned a MavMail account and are responsible for checking the inbox regularly. There is no additional charge to students for using this account, which remains active even after graduation. Information about activating and using MavMail is available at <http://www.uta.edu/oit/cs/email/mavmail.php>.

Student Feedback Survey: At the end of each term, students enrolled in classes categorized as lecture, seminar, or laboratory shall be directed to complete a Student Feedback Survey (SFS). Instructions on how to access the SFS for this course will be sent directly to each student through MavMail approximately 10 days before the end of the term. Each student's feedback enters the SFS database anonymously and is aggregated with that of other students enrolled in the course. UT Arlington's effort to solicit, gather, tabulate, and publish student feedback is required by state law; students are strongly urged to participate. For more information, visit <http://www.uta.edu/sfs>.

Final Review Week: A period of five class days prior to the first day of final examinations in the long sessions shall be designated as Final Review Week. The purpose of this week is to allow students sufficient time to prepare for final examinations. During this week, there shall be no scheduled activities such as required field trips or performances; and no instructor shall assign any themes, research problems or exercises of similar scope that have a completion date during or following this week *unless specified in the class syllabus*. During Final Review Week, an instructor shall not give any examinations constituting 10% or more of the final grade, except makeup tests and laboratory examinations. In addition, no instructor shall give any portion of the final examination during Final Review Week. During this week, classes are held as scheduled. In addition, instructors are not required to limit content to topics that have been previously covered; they may introduce new concepts as appropriate.

Course Schedule (Tentative):

Week	Date	Title	Chapter	Homework
1	08/24/2017	Course Details and Overview		
2	08/29/2017	Statements and symbolic Rep	1.1	
	08/31/2017	Propositional Logic	1.2	
3	09/05/2017	Quantifiers Predicates Validity	1.3	
	09/07/2017	Predicate Logic	1.4	
4	09/12/2017	Proof Techniques	2.1	HW 1 due before class
	09/14/2017	Proof Techniques		
5	09/19/2017	Induction	2.2	
	09/21/2017	Recursion and Recurrence Relations	3.1	
6	09/26/2017	Recursion and Recurrence Relations	3.2	HW 2 due before class
	09/28/2017	Sets, Mid term 1 Review	4.1	
7	10/03/2017	Mid Term 1		
	10/05/2017	Counting	4.2	
8	10/10/2017	Permutations and Combinations	4.3	
	10/12/2017	Combinatorics Contd.	4.4	
9	10/17/2017	Relations	5.1	HW 3 due before class
	10/19/2017	Relations and Topological Sorting	5.2	
10	10/24/2017	Relations and Functions	5.4	
	10/26/2017	Orders of Magnitude	5.5	
11	10/31/2017	Matrices	5.5	HW 4 due before class
	11/02/2017	Matrices, Mid term 2 Review		
12	11/07/2017	Mid Term 2		
	11/09/2017	Graphs	6.1	
13	11/14/2017	Trees	6.2	
	11/16/2017	Directed Graphs	7.1	
14	11/21/2017	Path problems	7.2	HW 5 due before class
	11/23/2017	THANKSGIVING - No Class		
15	11/28/2017	Path problems	7.3	
	11/30/2017	Graph Traversal	7.4	
16	12/05/2017	Boolean Algebra, Final Exam Review	8.1	HW 6 due before class
	12/07/2017	Final Exam Review		
17	12/12/2017	FINAL EXAM - 2315 - 004		
	12/14/2017	FINAL EXAM - 2315 - 003		

This schedule is tentative and subject to change. If changes are necessary they will be announced in class and posted in the schedule on the course page. As the instructor for this course, I reserve the right to adjust this schedule in any way that serves the educational needs of the students enrolled in this course - Vamsikrishna Gopikrishna
