

# CSE 5301: Data Analysis & Modeling Techniques

Spring 2023

## Instructor Information

---

### Instructor

Vamsikrishna Gopikrishna, Ph.D.

### Office Number

[ERB](#) 553

### Email Address and TEAMS ID

[vamsikrishna.gopikrishna@uta.edu](mailto:vamsikrishna.gopikrishna@uta.edu)

### Website

<https://crystal.uta.edu/~gopikrishnav/>

### Faculty Profile

<https://mentis.uta.edu/explore/profile/vamsikrishna-gopikrishna>

### Office Hours

- Timings: **Friday: 4:30 PM – 6:30 PM**
- Location: In-Person in my office ([ERB](#) 553) or via TEAMS meeting (Note: Priority for In-Person students)

If you are unable to meet during this time, please email the instructor to set up an alternate meeting time.

## Course Information

---

### Section Information

- CSE 5301 006

### Time and Place of Class Meetings

Class meetings for all sections will be On Campus

- **CSE 5301 006: [NH](#) 110 – Monday/Wednesday 5:30 PM – 6:50 PM**

### Course Webpage

- <http://crystal.uta.edu/~gopikrishnav/classes/2023/spring/5301/>
- However: Notes, Supplementary material, Assignments, and other material will be posted on: [Canvas](#)

### Description of Course Content

The objective of this course is to provide students the basic data analysis and modeling concepts and methodologies using probability theory. Basic statics concepts and probability concepts will be covered. Fundamental data analysis and hypothesis techniques will be covered. Further data modeling methodologies such as Hidden Markov Models and Bayesian networks will be introduced.

### Student Learning Outcomes

Students successfully completing this course will have gained a solid understanding of probabilistic data modeling, interpretation, and analysis and thus have formed an important basis solve practical

statistics and data analysis related problems arising in broad computer science and engineering, and daily life

### **Required Textbooks and Other Course Materials**

**Probability and Statistics for Computer Scientists (3<sup>rd</sup> Edition) by Michael Baron**, Chapman and Hall/CRC (ISBN: 97811138044487). Price: \$35.50 - \$118.13 (<https://a.co/9tzDYMr>) Note that you can also use the 2<sup>nd</sup> Edition. In addition, notes will be posted on [Canvas](#).

### **Description of Assignments**

There will be several homework assignments in this course. Most of the tasks will require handwritten or typed solutions. Some assignments may have programming tasks. The solution to programming tasks can be programmed in base versions of C, C++, Java, Python2 or Python3 only. **All homework submissions must be submitted via [Canvas](#). No other method of submission accepted under any circumstances.** All homework scores (other than the lowest one) will contribute to your final grade. If you find yourself in an emergency and cannot deliver homework on time, immediately inform the instructor. Also, while working with other people on non-graded example problems from the textbook is a good way to help you develop your understanding and insight into the techniques of problem solving, homework solutions must be your work only. Violations of this will not be tolerated and result in severe penalties for all parties involved, in strict compliance with official UTA policy.

### **Late Submission policy for Assignments**

The points each assignment graded out of will be provided as part of its description. Assignments submitted late will be automatically penalized, at a rate of **5% of assignment max points per hour late**. Late submission will not be accepted **24 hours** after the due date. **Note that for some assignments, submissions may not be accepted after the deadline** (such assignments will be announced in class beforehand). The submission due time (and the time the link will be available till) will be shown in [Canvas](#). Exceptions will only be made for documented emergencies, in strict adherence to UTA policy. Computer/Network crashes, Submission of Incomplete files, Submission of Incorrect Files, Submitting at Incorrect Link are NOT acceptable excuses for late submissions. **No exceptions will be made.** To avoid problems with such crashes and last-minute problems, students are encouraged to submit as early as possible. They are also advised to ensure that their file was uploaded correctly before submitting it. You can always revise your submission till the deadline. If you are unable to work on/submit an assignment due to a valid documented reason (illness, critical family emergencies, military service obligations, observance of major religious holidays, and certain university service commitments) one makeup assignment may be provided that will be due during finals week.

### **Description of Examinations**

There are three exams. There will be 2 exams which cover material discussed in class up to that point and a comprehensive Final exam. The exams are closed book/notes. You will need a scientific calculator (non-graphing, non-programmable) for doing calculations. Formula sheets will be provided for the exam (and will also be provided beforehand on canvas for review). No other material allowed. No exam scores will be dropped. The exams will be held on campus as in-person exams barring any new developments in the COVID-19 pandemic. If the university requires exams to be moved online, then they will be held online via the Lockdown browser with Respondus monitoring system.

### **Exam Absence policy**

Absence from exams may be excused, with appropriate documentation, for illness, critical family emergencies, military service obligations, observance of major religious holidays, and certain university service commitments. Requests for excused absence, and documentation for such absences, must be provided as soon as possible. In case of excused absence from Exam 1 and 2, a makeup exam will be set up and conducted by the instructor on a date before the last day of finals week. In case of excused absence of Final Exam, the student will be given a grade of Incomplete (I). A makeup final will be set up and conducted by the instructor at a date at some point in July 2023 and

the grade updated based on the score from that exam. **Even if the reason for an absence/non-attendance is valid, a request for an excused absence/re-attempt will be rejected if provided later than the day of the exam.** The dates for all the exams are subject to change. Any changes will be announced in class at least a week in advance (unless in case of an emergency or unforeseen university closure). The exact date, time and location of the Exam will be determined by the university and posted [here](#). Students are expected to be available till the last day of finals week. No accommodation/makeup exams will be provided if the student misses the Final exam due to being unavailable before the last day of finals week due to travel plans.

### **Academic Dishonesty Policy**

If you are caught colluding or copying in the assignments or exams the following consequences will be applied.

Per offence:

- You will be given a score of 0 points for that assignment or exam.
- Your final grade will be reduced by 2 letter grades (Up to a minimum of F)
- An academic integrity violation form will be filed.
  - If you agree to sign the form
    - You will be placed on disciplinary probation for 1 year and a 7 year reportable disciplinary record will be created.
    - Additional violations may result in increasing sanctions up to and including suspension or expulsion.
  - If you do not agree to sign the form
    - You will be temporarily given a grade of Incomplete (I)
    - The Office of Academic Integrity will conduct a formal investigation based on evidence provided
    - Based on decision, Either the grade will be calculated with the penalty and with the consequences discussed above or grade will be calculated without penalties and no forms being filed.

This policy is not up for discussion/negotiation under any circumstances.

### **Technology Requirements**

Students will need to know how to scan and upload their written assignments as PDF files. They will need to know how to do calculations using a Scientific Calculator. They may also need to know how to program in C, C++, Java or Python for any programming tasks that may be given. They will need to be able to use Canvas to view supplementary material provided by the instructor, view any video material posted by the instructor and to submit assignments. They are also strongly recommended to get used to TEAMS as an alternative way to get in touch with the instructor. If due to the COVID-19 pandemic, any exams have to be moved online, students will have to use the Lockdown browser with the Respondus monitoring system for the exams in which case they will need a computer with a webcam and an internet connection to take their exam.

## Grading Information

---

### Grading

You will be assigned a numerical score based on your performance in your assignments and in your exams.

Material	Contribution to Final score
Policy Acknowledgement	5%
Assignments	25%
Exam 1	20%
Exam 2	20%
Final Exam	30%

Note: Not completing policy acknowledgement form submission by its due date (Weekend following Census date) may result in students not being allowed to sit for Exams.

The assignments average will be calculated as geometric means of the percentage scores of each assignment:

$$Score_{avg} = \sqrt[n]{\prod_i \left( \frac{Score_i}{Score_{max}} * 100 \right)}$$

Note: The lowest assignment score will **not** be used in the calculation of its average.

This numeric score is converted to a letter grade according to the following rubric.

Numerical Score	Grade
>= 85	A
>= 70 & < 85	B
>= 55 & < 70	C
>= 40 & < 55	D
Otherwise	F

For the Exams and Assignments, if any tasks were graded incorrectly (a correct answer given less than full credit) or if there is a totaling error, please contact either the TA or the instructor ASAP. Any partial credit obtained for incorrect tasks is not up for discussion/negotiation.

Students are expected to keep track of their performance throughout the semester and seek guidance from available sources (including the instructor) if their performance drops below satisfactory levels. **No makeup exams or assignments will be provided for the purpose of bumping up your grade under any circumstances.**

### Grade Grievances

Any appeal for a grade in this course must follow the procedures and deadlines for grade-related grievances as published in the current University Catalog.

## Course Schedule

Week	L. No	Date	Topic	Chapter
1		1/16/2023	Martin Luther King Jr. Day - NO CLASS	
	1	1/18/2023	Introduction	N/A
2	2	1/23/2023	Probability and Random Variables	2, 3.1
	3	1/25/2023	JPD, Conditional Distributions, Independence, Bayesian Networks	3.2
3	4	1/30/2023	Expectation, Variance, Chebychev's Inequality	3.3
	5	2/1/2023	Families of Discrete Distributions	3.4
4	6	2/6/2023	Continuous Random Variables, Families of Continuous Distributions	4.1, 4.2
	7	2/8/2023	Central Limit Theorem	4.3
5	8	2/13/2023	Information Theory	N/A
	9	2/15/2023	Sampling, Descriptive Statistics	8.1, 8.2
6	10	2/20/2023	Graphical Statistics	8.3
		2/22/2023	EXAM 1 Review	
7		2/27/2023	EXAM 1	
	11	3/1/2023	Methods of Moments, Methods of Maximum Likelihood Estimation	9.1
8	12	3/6/2023	Confidence Intervals	9.2, 9.3
	13	3/8/2023	Confidence Intervals (Contd.), Hypothesis Testing	9.3, 9.4
9		3/13/2023	SPRING BREAK - NO CLASS	
		3/15/2023	SPRING BREAK - NO CLASS	
10	14	3/20/2023	Hypothesis Testing (Contd.)	9.4
	15	3/22/2023	Inference about Variances	9.5
11	16	3/27/2023	Chi-Square Tests, Bayesian Inference	10.1, 10.4
	17	3/29/2023	Simulation of Random Variables	5.1, 5.2
12	18	4/3/2023	Monte Carlo Methods	5.3
		4/5/2023	Exam 2 Review	
13		4/10/2023	EXAM 2	
	19	4/12/2023	Stochastic Processes, Markov Processes	6.1, 6.2
14	20	4/17/2023	Counting Processes, Simulating Stochastic Processes	6.3, 6.4
	21	4/19/2023	Queuing Systems	7.1, 7.2, 7.3
15	22	4/24/2023	M/M/1 Systems, Multi-server Systems, Simulating Queuing Systems	7.4, 7.5, 7.6
	23	4/26/2023	Hidden Markov Models	N/A
16		5/1/2023	FINAL EXAM Review, Q & A	
		5/3/2023	Student Study Day - NO CLASS	
17		5/8/2023	FINAL EXAMS - Check Online for exact Date & Time	
		5/10/2023	FINAL EXAMS - Check Online for exact Date & Time	

This schedule is tentative and subject to change at instructor's discretion. Changes will be announced in class. The instructor reserves the right to adjust this schedule in any way that serves the educational needs of the students enrolled in this course. EXAM 1 and EXAM 2 will be held at regular class timing in the same location as lectures. FINAL EXAM location, date and time determined by the University. Please visit: <https://www.uta.edu/records/calendars/final-exams.php> to get the date, time, and location information (unless otherwise mentioned, location is the same as lectures). Students should be prepared to be available for all of Finals Week (5/4/2023 to 5/10/2023) in case of any changes to Final Exam scheduling.

## **Institutional Information**

---

UTA students are encouraged to review the below institutional policies and informational sections and reach out to the specific office with any questions. To view this institutional information, please visit the [Institutional Information](https://resources.uta.edu/provost/course-related-info/institutional-policies.php) page (<https://resources.uta.edu/provost/course-related-info/institutional-policies.php>) which includes the following policies among others:

- Drop Policy
- Disability Accommodations
- Title IX Policy
- Academic Integrity
- Student Feedback Survey
- Final Exam Schedule

## **Additional Information**

---

### **Face Covering Policy**

*While the use of face coverings on campus is no longer mandatory, all students and instructional staff are strongly encouraged to wear face coverings while they are on campus. This is particularly true inside buildings and within classrooms and labs where social distancing is not possible due to limited space. If a student needs accommodation to ensure social distancing in the classroom due to being at high risk, they are encouraged to work directly with the Student Access and Resource Center to assist in these accommodations. If students need masks, they may obtain them at the Central Library, the E.H. Hereford University Center's front desk or in their department.*

### **Attendance**

Students are expected to attend the Lectures in person. While attendance is not required it is strongly recommended. While the lectures are recorded and posted online through Echo360 system, these are only provided for review purposes and not as a substitute for attending the lectures. If the student misses any of the lectures, it is the student's responsibility to look over the slides/videos/recordings to catch up with the rest of the class and clarify any questions they may have with the instructor.

At the University of Texas at Arlington, taking attendance is not required but attendance is a critical indicator of student success. Each faculty member is free to develop his or her own methods of evaluating students' academic performance, which includes establishing course-specific policies on attendance. As the instructor of this section, I will be following the attendance policy described above. However, while UT Arlington does not require instructors to take attendance in their courses, the U.S. Department of Education requires that the University have a mechanism in place to mark when Federal Student Aid recipients "begin attendance in a course." UT Arlington instructors will report when students begin attendance in a course as part of the final grading process. Specifically, when assigning a student, a grade of F, faculty report must the last date a student attended their class based on evidence such as a test, participation in a class project or presentation, or an engagement online via Canvas. This date is reported to the Department of Education for federal financial aid recipients.

## Emergency Exit Procedures

Should we experience an emergency event that requires evacuation of the building, students should exit the room and move toward the nearest exit, which is given in the Evacuation Route Maps given below. When exiting the building during an emergency, do not take an elevator but use the stairwells instead. Faculty members and instructional staff will assist students in selecting the safest route for evacuation and will make arrangements to assist individuals with disabilities.

Evacuation Route Maps: Available [Here](#).

Students are also encouraged to subscribe to the MavAlert system that will send information in case of an emergency to their cell phones or email accounts. Anyone can subscribe at [Emergency Communication System](#).

**The IDEAS Center** (<https://www.uta.edu/ideas/>) (2<sup>nd</sup> Floor of Central Library) offers **FREE** [tutoring](#) and [mentoring](#) to all students with a focus on transfer students, sophomores, veterans and others undergoing a transition to UT Arlington. Students can drop in or check the schedule of available peer tutors at [www.uta.edu/IDEAS](http://www.uta.edu/IDEAS), or call (817) 272-6593.

## The English Writing Center (411LIBR)

The Writing Center offers **FREE** tutoring in 15-, 30-, 45-, and 60-minute face-to-face and online sessions to all UTA students on any phase of their UTA coursework. Register and make appointments online at the [Writing Center](https://uta.mywconline.com) (<https://uta.mywconline.com>). Classroom visits, workshops, and specialized services for graduate students and faculty are also available. Please see [Writing Center: OWL](#) for detailed information on all our programs and services.

The Library's 2<sup>nd</sup> floor [Academic Plaza](http://library.uta.edu/academic-plaza) (<http://library.uta.edu/academic-plaza>) offers students a central hub of support services, including IDEAS Center, University Advising Services, Transfer UTA and various college/school advising hours. Services are available during the [library's hours](#) of operation.

## Librarian to Contact

Each academic unit has access to [Librarians by Academic Subject](#) that can assist students with research projects, tutorials on plagiarism and citation references as well as support with databases and course reserves.

## Emergency Phone Numbers

---

In case of an on-campus emergency, call the UT Arlington Police Department at **817-272-3003** (non-campus phone), **2-3003** (campus phone). You may also dial 911. Non-emergency number 817-272-3381

#####
