## Accessing Omega (With X-Windows Support)

## **On Linux and Mac**

You can access omega with x-windows support using the command in a terminal

ssh -X <net-id>@omega.uta.edu

## On Windows (using PuTTY, XMing and WinSCP)

- Download and install PuTTY from <a href="http://www.putty.org/">http://www.putty.org/</a>
- Download and install XMing from <a href="http://sourceforge.net/projects/xming/">http://sourceforge.net/projects/xming/</a>.
- Download and install WinSCP from <a href="https://winscp.net/eng/index.php">https://winscp.net/eng/index.php</a>
- Start XMing using XLaunch or default XMing shortcut. (You will need to do this every time you restart your computer before using PuTTY)
- Startup PuTTY and use omega.uta.edu as hostname and SSH as connection type
